

PRODUCT BRAND KIT

INTRO

Step onto the forefront of sports surfacing innovation with CushionX, the advanced cushion solution designed to redefine athletic performance and comfort.

Purposefully engineered to enhance every play, CushionX delivers unmatched impact resistance and exceptional durability, ensuring that both athletes and sports enthusiasts can enjoy a surface built to endure the demands of intense activity. By combining cutting-edge technology with thoughtful design, CushionX provides the perfect foundation for creating premium courts that perform as well as the athletes who use them. Whether you're building a brand-new court or upgrading an existing one, CushionX is the ultimate solution for those who demand superior quality and reliability in their sports surfaces.

DURABILITY FOR LONG-LASTING COURTS

CushionX is built to last, delivering durability that keeps courts in prime condition even under the strain of intense athletic activity. Beyond durability, CushionX is engineered to offer exceptional support for athletes, reducing the impact on joints and promoting safer, more comfortable gameplay. This combination of strength and resilience makes it a reliable choice for facilities & court owners looking to maintain top-quality courts that stand up to the rigors of competitive use.

EXCEPTIONAL IMPACT RESISTANCE

CushionX is designed to withstand the demands of intense athletic activity, offering a surface that balances durability and comfort. Athletes can trust CushionX to provide consistent performance, while its innovative force reduction technology absorbs up to 15% of impact. This reduction in stress on joints helps minimize fatigue and wear over time, promoting a safer and more comfortable experience for players. Built to perform and endure, CushionX is a reliable choice for facilities and court owners aiming to support athletes at their best.

FAST INSTALL FOR MINIMAL DOWNTIME

CushionX revolutionizes the installation process by delivering a speed that is three times faster than traditional methods. This efficiency minimizes downtime, allowing courts to transition swiftly from construction to active use. Courts owners and builders can enjoy a seamless process, ensuring their courts are ready for action with minimal delays.

MANUFACTURING AND DISTRIBUTION BY AT SPORTS

CushionX is proudly manufactured and distributed by AT Sports, a commitment that guarantees consistent quality and performance with every product. By maintaining full control over the production and distribution process, AT Sports ensures that CushionX meets the highest standards, providing customers with a product they can depend on. This dedication to reliability allows court owners and builders to trust that each order of CushionX delivers the same exceptional results, time after time.

CONFIDENCE BACKED BY A 5-YEAR WARRANTY

With a 5-year warranty from AT Sports, CushionX stands as a testament to the brand's unwavering dedication to quality and customer satisfaction. This comprehensive warranty not only reflects the confidence AT Sports has in its product but also provides peace of mind to facility & court owners, knowing their investment is protected for years to come.

CUSTOMIZABLE THICKNESS OPTIONS

CushionX offers a tailored approach to sports surface design with its customizable thickness options, ranging from 4mm to 8mm. These options provide the flexibility to meet the unique demands of different sports and athlete preferences. By selecting the right thickness, facilities & court owners can ensure optimal comfort and performance, creating a playing surface that aligns with the specific needs of each court.

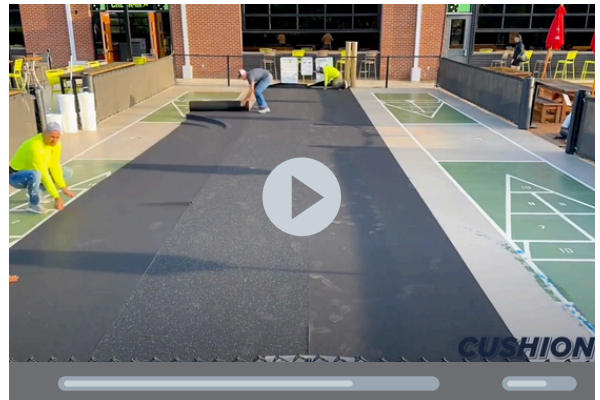

PAINT-READY FOR CUSTOMIZABLE DESIGNS

CushionX surfaces are designed to be paint-ready, streamlining the process of customizing courts with team colors or branding. Once installed, the surface is immediately compatible with the Acrytech Color Flex Coatings, eliminating the need for additional preparation.
